NICK KORTEX

Electronic Music Producer & DJ · South of France

“Composing music like filming a city at night — in shots, in motion, in emotion.”

ARTIST BIOGRAPHY

Nick Kortex is an independent electronic music producer and DJ from the south of France, with over 80 releases available on major streaming platforms. His sound moves fluidly between deep house, afro house, chill electronica, urban grooves and club-oriented tracks — always anchored in emotion, storytelling and late-night atmospheres.

Originally trained in cinema and contemporary theatre, Nick approaches music like a filmmaker, composing each track as if it were a short film for the dancefloor or a solitary night drive. Warm basslines, hypnotic rhythms and cinematic textures form the core of his signature sound, which can shift seamlessly from intimate headphone listening to full-on club energy in a single set.

After a serious accident in 2007, Nick chose to transform his daily life into a continuous creative process — using music as a way to turn shadows into blue light. His discography spans chill-out journeys, underground house, electro-classical pieces and collaborations with international artists such as Diamondancer and Comodo. Key releases include *Chill Out Nights 100% Nick Kortex*, *Aurelius*, and *Acid House (HD Remastered)*.
